Announcements

From Lar a Mekeel:

In order to close out our fiscal year (which ends June 30), we stop initiating purchases, travel reimbursements, and other operational expenses a few weeks before the end of the year. This year, we're asking that you have all travel reimbursements, marketplace orders, personal reimbursements and other orders submitted to my office no later than Friday, June 2.

This applies to items that will be charged to projects that begin with a 2,3,6, or 7. If you're charging a project that begins with a 5 (an externally funded grant), this deadline does not apply to you.

If we do not receive your order or reimbursement by June 2, we will not be able to process it this fiscal year and we'll have to wait until July 1 to process.

This also will affect you bi-weekly paid employees (typically undergraduate students and temporary workers). The last payday this fiscal year is June 30, for work period June 3 - June 16. So all work needs to be done June 16 or earlier to be paid out this fiscal year. Any work done

after June 16 will pay out in FY18. If your funds expire June 30, your bi-weekly employee or student cannot work after June 16.

Here's the pay calendar for your reference -

If you have any questions, or think you have an exception, please contact Lara Mekeel.

North Carolina State Health Plan is undertaking a Dependent Eligibility Verification.

If you insure dependents through the State Health Plan, you should have received a notice via mail about the audit and documentation required to be submitted to the State Health Plan. Below is a link with more information. Note: This is not an NC State University Audit - this is a Healthplan audit being conducted across all state entities.
