

NC STATE MICROBIOLOGY STUDENTS PRESENT: ALL THINGS MICROBIOLOGY!

WHEN: SATURDAY, NOVEMBER 2ND

FROM 10.30 AM - 12.30 PM AND FROM 1 PM – 3 PM

**NC STATE
UNIVERSITY**

WHERE:
**INVESTIGATE LAB ON THE
3RD FLOOR IN THE NATURE
RESEARCH CENTER**

Have you ever wondered what microbes are, where you can find them, and why they are important to us?

Come and join Dr. Alice Lee, Associate Teaching Professor at the Department of Biological Sciences at NC state and her students in the Micro World Investigate Lab to learn about "All things Microbiology"

Observe how microbes make some of your tastiest foods (Pizza, yogurt, bread) and learn how they impact your health and well-being through hands-on, interactive activities. You will be able to engage with NC State Junior and Senior STEM majors from all over the state, who are presenting their project about the following topics:

- Microbes and your oral health (biofilms, oral hygiene)
- Microbial diversity (abundance, growth, cultivation)
- Bacterial cell structures and shapes
- Antibiotic resistance
- Food microbiology

The students are excited to share their knowledge and possible career paths with everyone who visits the lab!

The **Investigate Lab** offers a variety of virtual and hands-on, in-person programs designed for middle school and high school groups.

For program descriptions and registration information, visit: https://naturalsciences.org/programs/program_type/ilabs/

To schedule a program, contact: **Missy Chernick** at melissa.chernick@naturalsciences.org

Programs fill quickly, so register today! **No registration required for this event!**
